## Traffic Alert Downtown Links

June 13, 2014

On Tuesday, June 17, 2014, geotechnical (soil) boring will be conducted near the Union Pacific Railroad right-of-way between Fifth and Sixth Streets. The boring test results will provide soil site conditions for design and construction recommendations. This information is needed for the final design plans for phase 3 of the Downtown Links Project.

Work is expected to take approximately one week to complete. This work should not cause any impacts to vehicular or pedestrian traffic in the area.

Please note, construction is not beginning on the final phase of the Downtown Links Project.

*The Tucson Department of Transportation (TDOT) keeps Tucson moving smoothly and safely. The Department's nearly 250 employees oversee the maintenance and reconstruction of nearly 1,900 miles of streets and are responsible for hundreds of drainage structures, public art pieces, street lights and signs, and traffic signals in Tucson. TDOT also operates the City's transit services, Sun Tran and Sun Van.*
